About Us

A Vision for 30/40

We operate under a guiding principle that we call Vision 30/40. It is the goal for women to occupy 30% of senior investment roles and executive committee positions by 2040.

To achieve a goal like Vision 30/40, it requires that we reach more women who are already in finance and while advocating for a new generation of industry leadership.

Our Pillars

Education

Education and Professional Programming (both virtual and in-person) help women to broaden perspectives, gain insights and sharpen skills at every stage of their career.

Peer Engagement

We empower women with connections and resources, providing the opportunity for networking, career advancement and increased industry presence.

Impact

We believe that expanding the pipeline of women entering finance, banking, technology and business higher education will ultimately increase female representation in leadership roles of these sectors.
