

Virtual Cybersecurity Escape Room

Cybersecurity Awareness Month

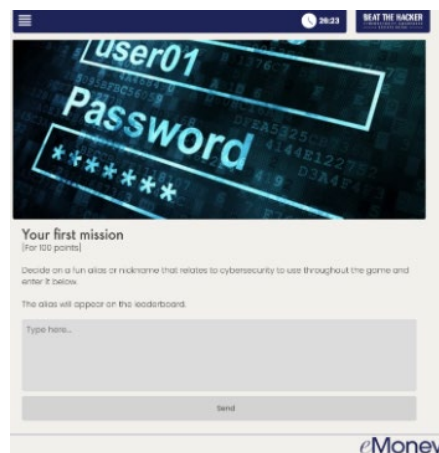

The Information Security team will be sharing tips, resources, and best practices throughout October in celebration of Cybersecurity Awareness Month to help keep our data and systems secure. New this year, we're excited to announce a fun and engaging way to boost our cybersecurity awareness - a **Virtual Cybersecurity Escape Room**! This interactive challenge will test your cyber-smarts as you solve puzzles and uncover clues to "escape" while learning about key cybersecurity concepts.

How to Join

[JOIN HERE](#)

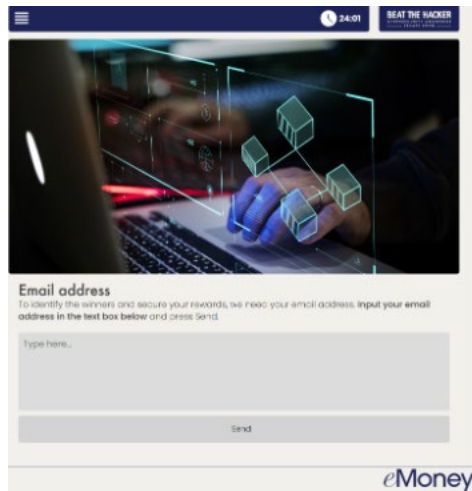

- Click 'Start.'
- Continue through to "Your first mission." Enter a fun alias or nickname – This name will appear on the leaderboard.

- Enter your eMoney email address on the next page.

- **NOTE:** Please do not complete the challenge more than once. Only your first attempt will be considered for prizes.

- Enjoy Playing the challenges!

Prizes

eMpower Points will be awarded to the top 3 finishers.

- **1st place:** 150 points
- **2nd place:** 75 points
- **3rd place:** 25 points

FAQs

- **When can I participate?**
The link will be active throughout the entire month – you can start the challenge whenever it is convenient for you!
- **How does the scoring work?**
There are three levels, each with four challenges worth 10-60 points each. Incorrect answers will cost you points. All four challenges must be completed before advancing to the next level.
- **Can I play the challenge more than once?**
No, due to licensing restrictions, employees should only play once. In the event you attempt to play more than once, only the first attempt will be counted, and the subsequent attempts will be deleted.
- **Can I pause the challenge?**
We highly recommend blocking off 30 minutes in your calendar to complete the challenge. While there is not an option to pause, your progress will be saved if you must close your browser before completion.

Stay tuned for more cybersecurity tips throughout the month in [life@eMoney!](#)
